

R Packages: Whole Game

2020-01-22

`open 00-whole_game/mbmisc2.rproj`

`open module 00-whole_game`

We're going to make a package **right now**

```
usethis::create_package("mbmisc2")
```

```
library(devtools)  
library(usethis)
```

```
use_r("labs_wrap")
```

```
use_package("ggplot2")
```

Build

R CMD Check

Edit DESCRIPTION

```
use_mit_license("Your Name")
```

`use_roxygen_md()`

Build

R CMD Check

```
use_testthat()  
use_test("labs_wrap")  
use_package("stringr", "Suggests")
```

use_git()
use_github()

Resources

R Packages, 2nd Edition: The work-in-progress second edition of R Packages. Uses the most cutting edge tools to make your life easier. Free online.

R Packages, 1st Edition: The first edition of R Packages. Still very good! Free online.
